Work Experience Cont'd

Sr. Cloud Engagement Arch   2015 – 2021

Church of Jesus Christ of Latter-day Saints   Salt Lake City, Utah

Lead efforts to uplift, migrate, and adopt cloud and hybrid solutions to deliver performant and secure solutions in a B2B, B2C, and multi-tenant global workforce.

Sr. Dynamics Engineer   2011 - 2015

Church of Jesus Christ of Latter-day Saints   Salt Lake City, Utah

Developed and deployed enterprise grade multi-tenant Dynamics Deployments with a global reach that supports multi-vendor integrations with an API First Focus. The ability to extend the XRM infrastructure allowed dynamic just in time information delivery from an ingress/egress standpoint.

Systems Engineer   2007 - 2011

Maggie Sottero Designs   Salt Lake City, Utah

Lead efforts to uplift, migrate, and adopt cloud and hybrid solutions to deliver performant and secure solutions in a B2B, B2C, and multi-tenant global workforce.

Owner/Engagement Consultant   1997 - 2015

Solarfinder   Salt Lake City, Utah

Supported various consultative engagements, including 3M Health Information Systems, ADP Inc., and HP Services across multiple projects. Managed engineering and architecture of collaborative systems that engaged multiple business sectors and department focuses. Engaged technologies around CRM/ERP/HRIS systems that bolstered client business processes.

Systems Engineer   1999 - 2004

Zions Bancorporation   Salt Lake City, Utah

Engineered and Managed virtual desktops and connected systems for remote worker and teller implementations. This included a full stack engagement that managed digitized fax platforms and distributed storage systems to ensure a highly available and secure platform to fully serve internal and external clients.
